"The South 40"
by JAMES A. SMITH
EXTENSION AGENT

Termite season is here -- we've had several home owners bring specimen by for identification. In all cases it was termites.

Termites tend to swarm in the spring and flying ants in the fall.

* * *

We need to be alert for the cereal leaf beetle. We have not identified this insect in Appomattox County but we can expect to find it here anytime. The preferred small grain is oats. The feeding pattern leaves a skeletonized leaf. In other words the fleshy portion is eaten and the more fiberous material is left. The larva is humped back and bluish in color. Please let us know if you observe this insect.

* * *

Feeder cattle prices were acceptable last Thursday at the first feeder cattle sale for the spring. 1035 steers averaged 584 pounds brought $41.24. The steers topped out at $45.25.

468 heifers averaging 502 pounds brought $33.63. Top heifer brought $37.25.

The next sale is April 15.

* * *

The truckers strike poses a serious threat to the livestock industry. Many farmers will recall the effect this had on livestock prices in 1973. This can cause significant increase in the price of carcass beef.

* * *

Whether there will be money in grazing steers this summer will be largely determined by corn prices.

With a normal season we could have a 6 billion bushel corn crop. The southern hemisphere is harvesting their crop and it appears to be a normal crop. Russia is having trouble with their winter wheat crop, which isn't unusual. They will try to catch up with a summer crop, but that remains to be seen. However, they probably won't be able to import more grain than they are now taking because of port facilities.

A large crown crop would mean low corn prices, probably $2.00 to $2.25 and high feeder cattle prices.

There are forecasters predicting a dry summer; should this materialize, there will be a lot of grass cattle going to market at depressed prices.

So if you can predict corn prices and the weather you'll know what to do.

* * *

Don't overlook vaccination for Brucellosis, Blackleg and Malignant Edema, IBR, and Lepto.

Cattle going on grass should be wormed.

* * *

I note one sweet corn seed supplier has a guarantee with their corn which says if their corn isn't the most delicious you've ever eaten, they will replace it with a quantity equal to your purchase of the variety of your choice.

* * *

In 1975 Appomattox Cattlemen sold 75 calves in the spring sales and 666 in the fall sales. This is the largest number ever sold through organized sales from this county.

U. S. Soybean Supply Sets New Record

This season's soybean supply of 1,706 million bushels topped last year's by some 23 percent, setting a new record, according to James R. Ford, Jr., Appomattox County ASC Committee Chairman.

The second largest soybean crop was the 1975 harvest totaling 1,521 million bushels.

"Favorable weather allowed harvest to progress faster than usual," Ford said. According to USDA's latest report on fats and oils, three-fourths of the soybean crop has been harvested by Nov. 1. At the end of November, 95 percent of the crop was harvested, the Chairman said.

Record supplies resulted in price declines. Prices received by farmers for soybeans during harvest fell $1 a bushel, from $5.35 in September to $4.28 in December.

Soybean production in Virginia totaled 10.8 million bushels in 1975, compared to 10.1 million bushels in 1974. Virginia producers received $4.50 per bushel for soybeans in 1975, compared to $6.64 per bushel in 1974.

U. S. Soybean stocks in all positions totaled a record 1,246 million bushel on Jan. 1, 1976, up 26 percent from a year ago.

Blue Grass Concert In C.C. House

The Patrick Henry Academy P.T.O. will sponsor a Bluegrass Concert on Saturday, April 24 from 4:30 to 10:30 p.m. at the Charlotte Court House Raceway.

The concert is being handled through the Central Virginia Bluegrass Association and features their bands and other guests as well, including the state championship band: Harvest.

Food, such as Brunswick Stew, hot dogs, drinks, etc., will be served on the grounds.

Admission is $2.50 for adults and $1.50 for children under 13.

* * *

We urge you to come out and bring the family and grandma and grandpa and have a foot stomping good time listening to top Bluegrass bands. Bring folding chairs or mats to sit on, if desired, but you'll probably be having so much fun you just can't sit down.

Fidelity American Bankshares Note Increase In Earnings

In its 1975 Annual Report to Stockholders, Fidelity American Bankshares announced a 107% increase in operating earnings over 1974. Operating earnings climbed to $4,090,321 or $1.55 per share in 1975. Net earnings for 1975 were $4,256,395 or $1.61 per share.

The Corporation also announced a change in the Corporate symbol or logo. Alvin R. Clements, President, said that the new logo symbolizes the company's renewed commitment to providing the best in financial services to its customers. It also serves as a means of common identification of banking affiliates of the company throughout the State. The new logo is an interlocking white "F" and "a" on a field of red and blue.

In addition to reporting a significant improvement in earnings, the Annual Report revealed that the assets of the company had reached an all-time high of $823,726,846. During 1975, Fidelity American Bankshares emphasized the further development and refinement of its traditional banking activities. Improvements to physical facilities were completed at several locations and operating efficiences were improved throughout the company. This resulted in overall improved productivity and expense reduction. A 43% reduction in corporate debt to a level of $21,540,078, coupled with a reduced utilization of other sources of borrowed money has improved the Corporation's overall liquidity.

Fidelity American Bankshares is a Lynchburg based multi-bank holding company of 15 banking affiliates with 80 offices throughout the State of Virginia.
